

Internexia's proven record of excellence continues to be demonstrated; please see below for some recent projects.

Internexia developed and implemented a fully integrated Learning and Information Management system

- Integrates with their HR system
- Manages their course request, approval and authorization process
- Tracks CPD performance of over 3000 Agents
- Provides tools for the creation and delivery of their own internal CPD programmes

We have created multimedia-rich, interactive learning modules for a leading banking institution

- Applies instructional design theory into real world software application training
- Integrates bespoke graphics, audio, video, text and animation
- Includes interactive simulations, tests, branching, case studies and assessment
- Is SCORM compliant

What do we do?

Intern ~~Official website of National Financial Reporting Centre English language programme,~~

We work ~~with the Ministry of Education to deliver their Gifted & Talented Initiative~~

Intern ~~Partnership with the Ministry of Education, IPTS to deliver online learning~~
