

Is

your company or organisation looking to become ISO14001 certified or does it v

A traditional trainer-led classroom model is clearly inefficient in environmental terms. Delegates and train

There are ways to reduce your carbon emissions and eLearning is one of them. Possible solutions inclu

- Virtual classrooms to minimise travel
- Web conferencing to replace meetings and travel
- Expert resources held digitally and accessed on screen when needed
- User generated content in the forms of blogs and wikis enabling sharing of best practice
- eLearning programmes to impart knowledge
- Online assessments
- Small just-in-time learning objects created quickly

Organizations looking to make efficiency savings will assess each training requirement, and consider wa

*"... carbon savings will accrue from moving from hard copies to carbon reduction and e-learning / carbon*
